

Security Program Management. Simplified.

About Enveedo

At **Enveedo**, we understand that a cybersecurity program is essential in this digital age.

However, creating and maintaining one can be complex and time-consuming. That's why our mission is to help security professionals by providing a comprehensive risk management platform that is easy to use and guides them to understand, plan, execute, and evolve a cybersecurity strategy.

Enveedo simplifies the complex process of planning, building, and managing a Cybersecurity Program. The **Enveedo** platform is easy to use and guides you every step of the way.

Our SaaS platform transforms fragmented security programs into a unified, automated risk management system—reducing risk, simplifying compliance, and driving strategic security outcomes.

Unique **Top-Down**
Approach to
Enterprise Risk

Workflow
Automation to
offload manual tasks

API Integration to
incorporate
accurate risk data

Simplified
Risk-Based
Executive Reporting

Sistec ensures comprehensive protection, combining expertise in training, physical security, and cybersecurity. We prioritize delivering personalized solutions that align perfectly with our clients' needs—because when it comes to security, words are unnecessary.
